

MOHD KAIF

Full-Stack Developer & Security Researcher

9058586306

Asadpur, Moradabad, (UP)

itsmohdkaif003@gmail.com

Highly motivated Full-Stack Developer and Security Enthusiast with a Master Diploma in Computer Office Management (91.4% AA Grade). Expert in building responsive web applications and performing security testing, including SQL Injection and File Upload vulnerability assessments. Founder of **YourCoder.in**, dedicated to delivering secure, high-performance digital solutions.

Seeking a challenging role as a **Full-Stack Web Developer** where I can leverage my expertise in **Frontend/Backend development and Web Security**. A detail-oriented and dedicated professional, ready to apply my technical skills in **modern frameworks and secure coding practices** to achieve high-quality organizational goals.

PROJECTS

Full-Stack Web Development (YourCoder.in)

- **QR Sticker Generator Pro:** Developed a high-performance **Next.js 14** application with **TypeScript** and **Framer Motion**. Features real-time QR generation with 4x high-res PNG export for vehicle emergency contacts.
- **WebDose (Chrome Extension):** Created a tool for real-time local modification of website content, useful for UI testing and rapid prototyping.
- **Professional UI Portals:** Designed and deployed responsive landing pages for industries like Logistics (Transport UI) and Manufacturing (3B Enterprises).

ZaikaFit.com | Talbina & Nutrition E-Commerce Portal

- **Core Architecture:** Developed a robust, end-to-end health and food delivery platform using **PHP (OOP)** and **MySQLi** for secure data persistence.
- **Advanced Admin Control Panel:** Built a centralized dashboard for real-time management of products, user orders, and dietary plans. Integrated **User Activity Tracking** to monitor engagement and site traffic.
- **SMTP Integration:** Implemented automated email communication using **PHPMailer & SMTP** for secure order confirmations, password resets, and promotional newsletters.
- **Live Order Tracking System:** Engineered a dynamic status update system allowing users to track their meal orders from "Processing" to "Out for Delivery" using **AJAX-based real-time updates**.
- **Security First Approach:** Secured the application against **SQL Injection** and **XSS** by implementing prepared statements and strict server-side input validation.

-
- **Payment & Database Logic:** Managed complex relational database schemas for inventory management, ensuring 100% data integrity during high-traffic transactions.

Web Security & Penetration Testing

- **Vulnerability Assessment:** Conducted practical security testing on various web applications, focusing on identifying and mitigating **SQL Injection (SQLi)** and **Insecure File Upload** vulnerabilities.
- **Secure Coding:** Implemented server-side validation and sanitized user inputs in PHP projects to prevent common web attacks.
- **Exploitation Research:** Experience in manual exploitation techniques and using security tools like **Burp Suite** for testing web logic.

EDUCATION

Master Diploma in Computer Office Management & Publishing (MDCOMP) | National Training Institute, Reripur (2023 - 2025)

- Achieved a high-distinction 'AA' Grade (91.4%).
- Developed comprehensive skills in M.S Office, Tally ERP 9 with GST, and DTP software (Adobe PageMaker, Corel Draw).

Higher Secondary Education (12th Grade) | Habibi Public Inter College Dingarpur, UP Board (2021 - 2023)

Specialized in: Physics, Chemistry, Biology

- Cultivated strong analytical and time-management skills.

Secondary Education (10th Grade) | SH Inter College Imratpur Udhon, UP Board (2019 - 2021)

- Established a strong academic foundation.
- Demonstrated consistent academic performance.

TECHNICAL SKILLS & EXPERTISE

Full-Stack Development

- **Languages:** JavaScript (ES6+), TypeScript, **PHP (Core & OOP)**, Python, SQL.
- **Frontend:** **Next.js 14**, React.js, HTML5, CSS3 (Flexbox/Grid), Tailwind CSS.
- **Backend:** Node.js, Express.js, AJAX, **SMTP/PHPMailer Integration**.
- **Database:** **MySQLi**, MongoDB, JSON data handling.

Web Security & Testing

- **Vulnerability Testing:** SQL Injection (SQLi), NoSQL Injection, Insecure File Uploads.
- **Security Auditing:** Manual Penetration Testing, Input Sanitization, XSS Prevention.
- **Tools:** Burp Suite (Basic), Google Dorks, Git/GitHub, Vercel, Cloudflare Pages.

Design & UI/UX Tools

- **Graphics:** Adobe Photoshop, CorelDraw (Logo & UI Mockups).
- **Libraries:** Framer Motion (Animations), Lucide Icons, Swiper.js.

Other Technical Skills

- **Automation:** Python-based web automation and data scraping.
- **Deployment:** Custom Domain/DNS Management, SSL Setup, Serverless Functions.
- **OS:** Windows Expert, Linux Environment (Terminal Basics).

CONNECT & PORTFOLIO

- **Live Portfolio:** kaif.yourcoder.in (Showcasing all live projects and UI designs)
- **GitHub Profile:** github.com/mohd-kaif003 (Source code for Next.js and PHP projects)
